SUMMARY

Information Science and Engineering graduate with hands-on experience in full-stack web development, data analytics, and AI-assisted software development. Completed a Data Analytics internship at Skyllx Technologies and developed multiple end-to-end projects, including an AI-powered analytics platform, a real-time IoT-based Soldier Health & Position Tracking System, and SQL-driven business dashboards. Proficient in React.js, Next.js, Node.js, Express.js, FastAPI, SQL/NoSQL databases, and RESTful APIs. Quick learner with strong problem-solving skills, adaptability, and a passion for building scalable, data-driven software solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, C, Java, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, FastAPI, Django, Vite, Chart.js/Recharts

Databases: MongoDB, MySQL, PostgreSQL (Supabase)

Data & Analytics: Pandas, NumPy, Matplotlib, SQL, Power BI, Jupyter Notebook

Tools & Platforms: Git, GitHub, VS Code, MS Excel, Supabase, Vercel, Claude & AI Coding Agents

Concepts: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), CRUD Operations, Operating System (OS) Fundamentals, Authentication & Authorization (JWT), RESTful APIs, Git Version Control

EXPERIENCE

Skyllx Technologies Pvt. Ltd. — Data Analytics Intern *Jan 2026 - May 2026*

Bengaluru, India

- Completed a hands-on Data Analytics internship, working on data-driven tasks and projects involving data collection, cleaning, analysis, and visualization.
- Applied data analysis techniques using Python, SQL, Power BI, and AI-assisted tools to explore datasets, generate meaningful insights, and support data-driven decision-making.
- Collaborated with mentors and team members to complete assigned analytical tasks, demonstrating adaptability, problem-solving skills, and the ability to quickly learn new tools and technologies.
- Prepared reports and dashboards to communicate analytical findings effectively while following industry best practices.
- Successfully completed the internship and received certification in recognition of commitment, professionalism, and consistent performance throughout the program.

PROJECTS

Real-Time Soldier Health & Position Tracking System

React.js, JavaScript (ES6+), Chart.js/Recharts, Google Sheets API, Node.js

- Built a real-time web dashboard to monitor soldier vitals (heart rate, temperature, oxygen level) and GPS location, powered by a wearable IoT device worn by the soldier that streams sensor data via Google Sheets as a live data source.
- Implemented status classification (Normal/Warning/Critical), field alerts, and a health assessment & threat analysis system for critical conditions.
- Added interactive charts, data export (PDF/CSV/Email), and automatic polling from Google Sheets API for near real-time updates.
- Selected for the Karnataka State Council for Science and Technology 49th Annual State-Level Student Project Programme (SPP) Poster Presentation and Exhibition, 17-18 July 2026, at BGSIT, Mandya.

DataSnap — AI-Powered Analytics Workspace

React 18, Vite, FastAPI, Supabase (Postgres + Auth), DuckDB, Tailwind CSS

- Developed a full stack analytics platform with a FastAPI backend and React/Vite frontend, backed by Supabase Postgres and DuckDB for query execution.
- Built dashboard CRUD with drag-and-drop layout, in-browser SQL query execution, and multiple chart types (bar, line, area, pie, scatter).
- Integrated an AI-powered chat assistant (Google Gemini / OpenRouter) for auto-generated insights and natural-language data queries.
- Implemented Supabase JWT (ES256) authentication verified via JWKS.
- Deployed frontend on Vercel and backend on Render with CI-driven deployment.

Customer Shopping Behavior Analysis Dashboard

Python, Pandas, MySQL, Power BI, Jupyter Notebook

- Performed end-to-end analysis of customer shopping behavior: data cleaning, exploratory data analysis, and SQL-based querying in MySQL Workbench.
- Built an interactive Power BI dashboard covering customer segmentation, revenue analysis, category-wise sales, subscription trends, age-group analysis, and review ratings.
- Surfaced key business insights, including clothing as the top revenue category, non-subscribers driving majority purchases, and an average review rating of 3.75.

EDUCATION

RR Institute of Technology, Bengaluru *2022 - 2026*

Bachelor of Engineering, Information Science and Engineering | CGPA: 7.6

Y.T.S.S PU College, Yellapur *2020 - 2022*

Pre-University Course | Percentage: 70.83%

SOFT SKILLS

Leadership, Team Collaboration, Problem-Solving, Communication, Adaptability, Time Management

CERTIFICATIONS

- Java Programming — Udemy
- Python for Everybody — Udemy
- Database Management with MySQL — Infosys Springboard
- Web Development Fundamentals — IBM SkillsBuild
- JavaScript Essentials 1 & 2 — Cisco Skills for All
- Participated in a workshop on AI for Students, focused on building an AI model tailored for their own generation
